COMPANY PROFILE

As a Glass Blower I Strongly feel that perfection is not a qualification It is a journey though a dark tunnel to the brightest end of it

So it took **45 years** in all to make me a glass technologist where I hold my head high in front of the whole world and say that my hands and brain have reached the point of no returns in quality. Hands that work for quality are always more precious than hands that pray. This has given me a special mark of respect and recognition by

Sh. Sadhu Ram Jindal
Founder (Glacier Glass Works)

Govt. of India in the shape of **National Excellence Award**. I always say. The right to lead is no longer an inherited advantage, it is the fruit of lab our, the price of courage” I have handed over the baton to my son **Mr. Anand Jindal** and wish him a great success with an eye on international Excellence Award.

Certificate of Conformity

Certificate of ISO 13485 : 2012
