

Item Name : Claisen Heads Sloping with 2xB-14 Socket

Item Code : 030.2008.01

Item Description :

Claisen Heads Sloping with 2xB-14 Socket – Laboratory Glassware

Claisen Heads Sloping with 2xB-14 Socket is a precision-engineered glassware adapter designed for complex distillation and fluid separation.

Key Features

- **Durable Borosilicate Glass** – Offers high resistance to thermal fluctuations and chemical exposure.
- **Sloping Claisen Head Design** – Facilitates efficient multi-channel fluid distribution.
- **Dual B-14 Socket Configuration** – Allows simultaneous connections for advanced laboratory setups.
- **Leak-Proof & Contamination Resistant** – Ensures controlled fluid transitions and sample integrity.
- **Standardized Joint Compatibility** – Available in various cone sizes for seamless integration with lab apparatus.

Why Choose Our Claisen Heads Sloping with 2xB-14 Socket?

Designed for multi-step reactions, this adapter enhances laboratory efficiency by enabling parallel sample processing and reaction control.

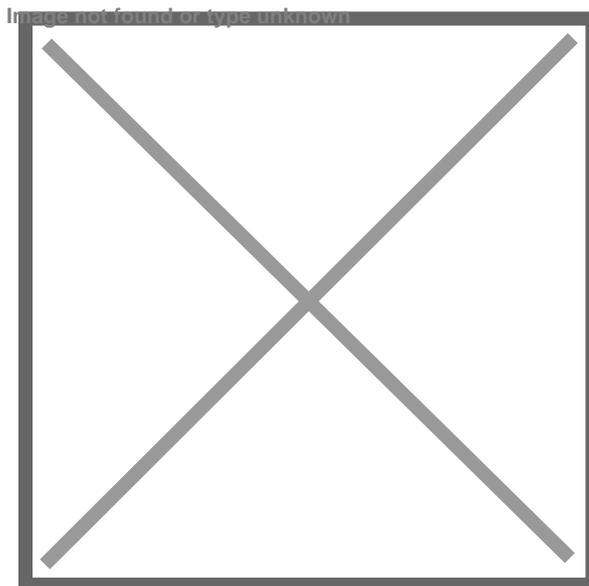

Applications

- **Chemical & Pharmaceutical Research** – Ideal for fluid separation and reaction monitoring.
- **Biotech & Medical Laboratories** – Supports precise sample containment and controlled distillation.
- **Industrial Fluid Processing** – Optimized for glassware setups requiring multi-channel connections.

Upgrade Your Laboratory Workflow Today

Improve experimental precision with Claisen Heads Sloping with 2xB-14 Socket, designed for controlled distillation and seamless laboratory integration.
