

Item Name : Steam Distillation Heads Sloping

Item Code : 034.2008.01

Item Description :

Steam Distillation Heads Sloping – Laboratory Glassware for Eff

Steam Distillation Heads Sloping are precision-engineered laboratory adapters designed for controlled steam distillation processes. Manu

Key Features

- **Premium Borosilicate Glass** – Provides superior thermal stability and chemical resistance.
- **Sloping Design for Steam Flow Optimization** – Facilitates efficient vapor condensation and separation.
- **Leak-Proof & Contamination Resistant** – Ensures sample integrity during laboratory procedures.
- **Standardized Joint Compatibility** – Available in multiple cone sizes to fit laboratory flasks and condensers.

Why Choose Our Steam Distillation Heads Sloping?

Designed for laboratory precision, these distillation heads enhance steam distillation efficiency while preventing unwanted fluid loss. Their

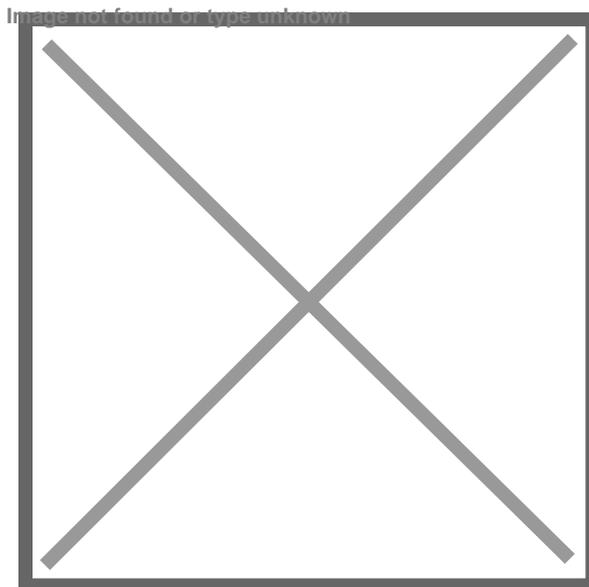

Applications

- **Chemical & Pharmaceutical Research** – Supports controlled steam distillation in experimental setups.
- **Biotech & Essential Oil Extraction** – Ensures efficient separation of volatile compounds.
- **Industrial & Scientific Glassware Integration** – Facilitates fluid transfer in manufacturing and testing environments.

Enhance Your Laboratory Efficiency Today

Improve distillation accuracy with Steam Distillation Heads Sloping, designed for controlled vapor condensation and secure laboratory op
