

**Item Name :** Stirring Rod

**Item Code :** 057A.2008.01

**Item Description :**

## Stirring Rod – Laboratory Glassware for Efficient Mixing

Stirring Rod is a precision-engineered laboratory tool designed for effective mixing of liquids and solutions. Manufactured from high-quality

### Key Features

- **Premium Borosilicate Glass** – Provides superior thermal stability and chemical resistance.
- **Smooth Rounded Ends** – Prevents scratching of glassware and ensures safe handling.
- **Versatile Mixing Tool** – Ideal for stirring, decanting, and crystallization processes.

### Why Choose Our Stirring Rod?

Designed for laboratory precision, this stirring rod enhances mixing efficiency while maintaining sample integrity. Its smooth surface and

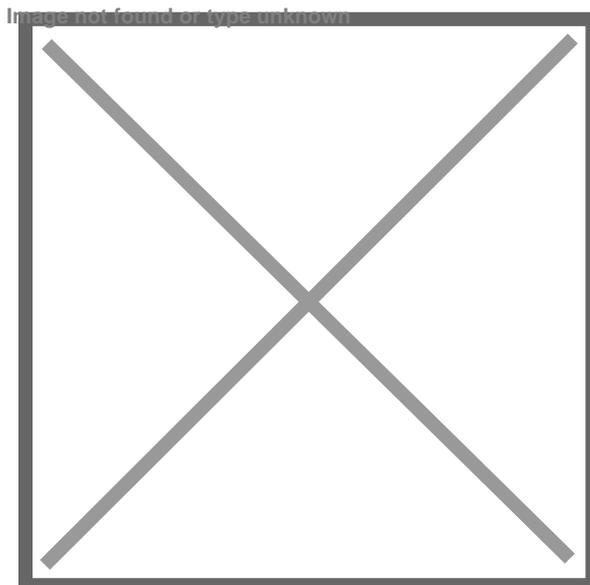

### Applications

- **Chemical & Pharmaceutical Research** – Supports controlled mixing in experimental setups.
- **Biotech & Medical Laboratories** – Ensures efficient sample preparation for analytical procedures.
- **Industrial & Scientific Glassware Integration** – Facilitates uniform mixing in manufacturing and testing environments.

### Enhance Your Laboratory Efficiency Today

Improve mixing accuracy with Stirring Rod, designed for controlled fluid agitation and secure laboratory operations.
