

Item Name : Magnetising and Demagnetising Coil

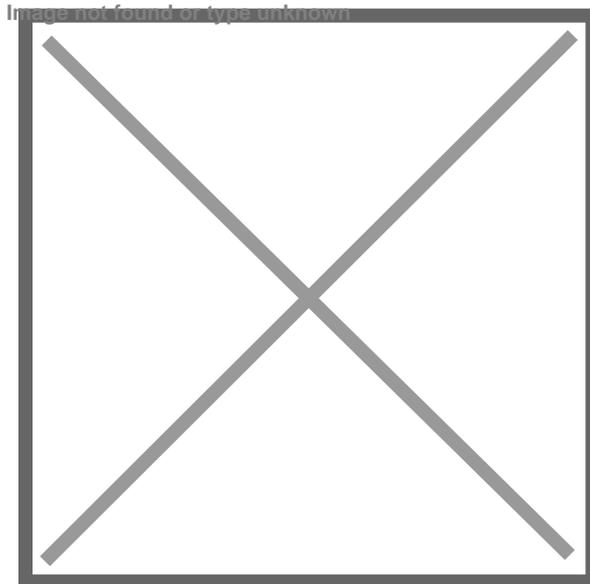

Item Code : 3141.2008.01

Item Description :

The Magnetizing and Demagnetizing Coils low voltage and is suitable for magnetizing and demagnetizing ordinary magnets, iron bars, strips, etc. It comprises of a solenoid wound with insulated copper wire which is mounted on a base complete with switch and 4mm terminals.

- Solenoid 250mm long x 35mm internal diameter • Demagnetizing by a.c. only
- Operating voltage 12V a.c. or d.c. at 6A • Magnetizing by a.c. or d.c.
